€ 74.420,00

Co-financing by the Municipality of Cesena:
€ 116.549,00

Funding Programme:
European Regional Development Fund, Regional Operational Programme Emilia-Romagna 2014-2020

Axis 4 -Priority of Investment "4C" – Specific Objective 4.1 Actions 4.1.1 e 4.1.2

EXTRAORDINARY MAINTENANCE INTERVENTION FOR ENERGY EFFICIENCY IN THE PRIMARY SCHOOL CASE FINALI IN VIA PADRE D. TUROLO N. 120

OBJECTIVES

The aim of the project is to improve the internal climate of the school and the energy efficiency of the building envelope by replacing a part of the existing windows (single glazing and metal frame) with new PVC windows and with safety glass.

The project includes the supply and installation of new roller shutters and insulated roller cover boxes.

ACTIONS

The energy requalification will be achieved by replacing the existing windows with windows having a total transmittance $U_w < 1.2 \text{ W / m}^2\text{K}$. Thermal bridges will also be corrected by installing, where present, insulated bins.

EXPECTED RESULTS

Modernization of the school building, with consequent improvement of user comfort and reduction of energy consumption.
